GETTING TO THUMBS

This video captures not only the excitement at reaching consensus on the 2012 National Agreement, but also shows the power of interest-based problem solving and how it creates energy, learning and unity instead of leaving people drained. You'll hear from employees represented by the Coalition of Kaiser Permanente Unions and others who worked with Kaiser Permanante using interest-based bargaining to reach the largest private-sector labor agreement negotiated in 2012.

STARRING
