

OCTOBER 2017

PREVENT SLIPS, TRIPS AND FALLS

**THE MONTH OF OCTOBER CAN BE SCARY, IT'S TRUE
SO EACH UBT SHOULD FIND SOMETHING TO DO**

**A PROJECT TO PREVENTS SLIPS, TRIPS AND FALLS
PLACE THIS FLIER ON THE DEPARTMENT WALLS!**

Look around. Do you see a hazard or a threat?

Cords in the way or floors that are wet?

Make a list of all dangers with your whole team...

Such as low cabinets, heavy lifts or an exposed beam.

Have your UBT members rank the risks one through four;

Start with the top culprit, assign everyone a chore.

Once that menace is gone, go on to the next.

Inform the team by flier, call, email or text.

Don't stop there, new risks might arise;

Have safety conversations so there is no surprise.

**MAKE OCTOBER LESS FRIGHTENING AND SAFER, TOO.
NO SLIPS, TRIPS OR FALLS FOR YOUR WORKPLACE CREW!**
